

Times Table puzzles

Use this table to check your answers to January's Time Table puzzles.

You can also use it to find the product of 2 numbers from 1 to 15:

Locate one number in first row and the other in the first column. The product is at the intersection of the row and column.

Perfect squares (numbers multiplied by themselves) are marked yellow.

	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
1	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
